

DRAIN TRAP SEALER

Problem: water evaporates from drain traps when they are not used. As a result, drain traps dry out and allow dangerous sewer gas to enter the building space. Keeping the trap filled will prevent the sewer gas from coming back.

FEATURES

- ▲ Long lasting
- ▲ Effective
- ▲ Fresh scent
- ▲ Non-Petroleum
- ▲ Blocks & prevents sewer odors from entering the room
- ▲ Made in the U.S.A.
- ▲ 100% Guaranteed
- ▲ Toll free helpline at 1-800-613-4242

APPLICATIONS

- ▲ Hotels/Motels
- ▲ Apartment Complexes
- ▲ Restaurants
- ▲ Hospitals/Nursing Homes
- ▲ Industrial/Manufacturing Facilities
- ▲ Educational Facilities
- ▲ Commercial/Multi-use Buildings

DIRECTIONS FOR WET TRAP

Shake well before using Instant Power Professional® Drain Trap Sealer and carefully add 3-4 oz. of Sealing Liquid directly into the wet trap.

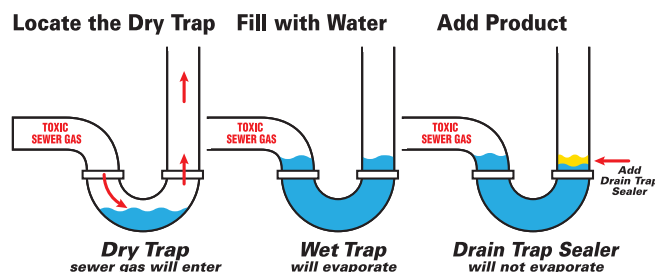

DIRECTIONS FOR DRY TRAP

Drains not used regularly can easily dry out. Locate dry drains, then pour 2 quarts of water in the trap. Carefully add 3-4 oz. of Sealing Liquid directly into the wet trap.

If water is poured down the drain, you will need to add more Sealing Liquid to stop the sewer gas.

SPECIFICATIONS

Physical Form:	Liquid
Color:	Dark Blue
Scent:	Fresh
pH:	N/A
Density-Specific Gravity:	0.90 – 0.95, Water = 1
Flash Point (TCC)	Not Relevant
